No Impacts

Minimal Impacts

Moderate Impacts

Severe Impacts

WEATHER KEY POINTS

02/26/22 - 03/04/22

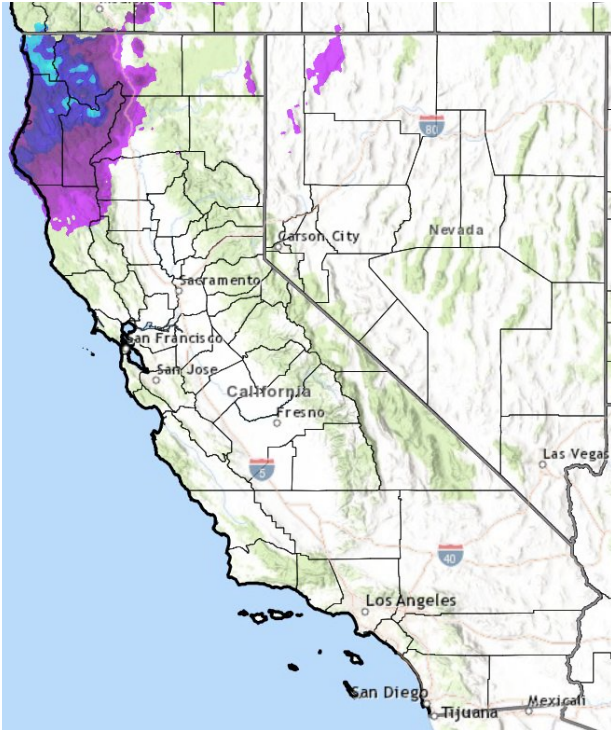

Saturday - Friday

- Gusty offshore Santa Ana winds will persist across the southern California mountains and foothills through Saturday evening, with lighter winds arriving for Sunday and into the middle of next week
- Rounds of higher waves will impact many coastal areas through Saturday night, resulting in an increased risk for rip currents and possibly some minor overwash at times
- Temperatures will see a significant warming trend through the weekend and into much of next week, with some areas across southern California warming back into the 80s by early to mid week
- Dry weather will also continue for many areas of the state through next week, though a few rounds of mainly light precipitation are expected across the northern third of the state through Thursday, including the potential for some light snow accumulation across the northern Sierra

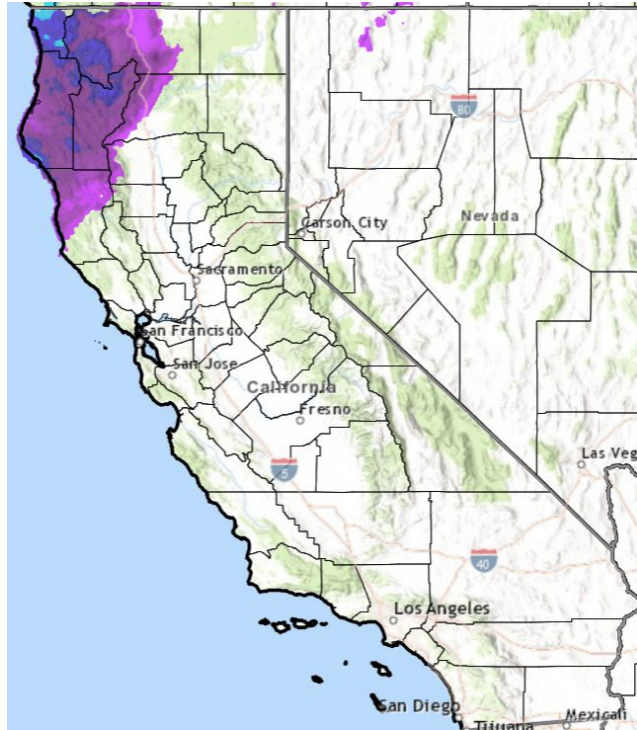

PRECIPITATION FORECAST

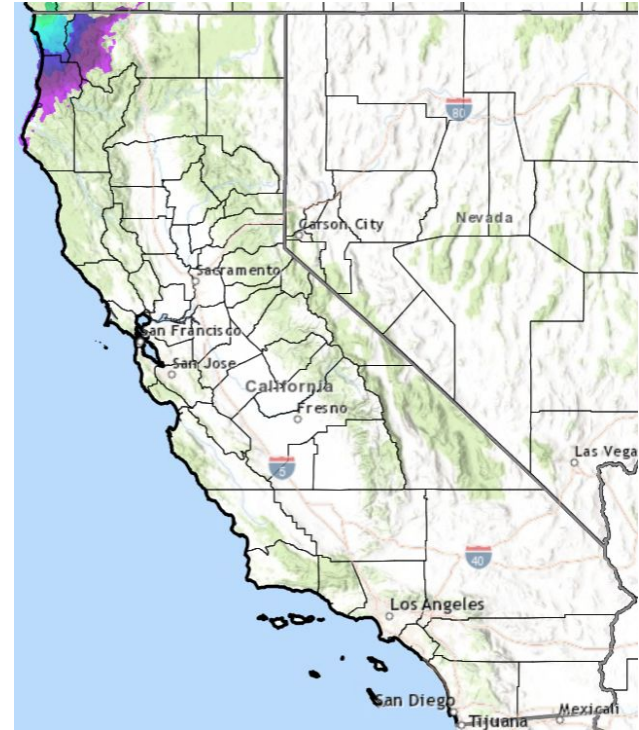

02/26/22 - 02/28/22

Saturday

Sunday

Monday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)
